

Accelerated Pavement Testing 6th international conference

Contribution of Accelerated Pavement Testing to transport infrastructure innovation

April 6, 2022: Exhibition Day at Nantes Campus of Université Gustave Eiffel

The last day of the conference is dedicated to technical visits and demonstrations of equipment on the Nantes Campus of Université Gustave Eiffel (UGE). You will in particular be able to visit our full-scale APT facilities, the large-scale Fatigue Carrousel, and the smaller FABAC machines and see demonstrations of road monitoring equipment by our sponsors and exhibitors.

PROGRAMME:

8:15 – 8:30 am	Departure from the Nantes Congress Centre by shuttle, to the UGE campus
9:00 – 9:30 am	Arrival on site and welcome coffee
9:30 – 12:30 am	Visit of the facilities and technical demonstrations
	<i>Visits will be organized by groups of about 15 persons</i>
12:30 am	Group photo near the carrousel
0:30 – 2:00 pm	Buffet Lunch
2:00 – 4:00 pm	Free time for visits and discussions
2:30 and 4:00pm	Return shuttles to the Congress Centre

DEMONSTRATIONS OF EQUIPMENT:

Greenwood:	Traffic Speed Deflectometer (TSD)
Dynatest:	Multi function monitoring vehicle Fast FWD
Rincent:	Dynamic plate load test (Dynaplaque) FWD Light portable dynamic plate load test
Nextroad:	SCRIM pavement skid resistance measurement vehicle MDS: Ground Penetrating Radars
Eurovia:	Sensors for pavement instrumentation
6D Solutions:	Fiberglass grid products for pavement reinforcement

REGISTRATION:

The demonstration day is fully included into the conference offer. However, in order to facilitate the organization of demonstrations, we invite you to register at the welcome desk. We invite you also to visit the exhibitors' stands and discuss the opportunity to have a special moment with them during the demonstration day.
